Republican County Committee Meeting.

The members of the Republican County Committee for Crawford county are requested to meet at the Court House in Meadville, on Tuesday, April 20, 1868, at 2 o'clock P. M., for the purpose of fixing the time of holding the Primary Meeting for the current year.

HENRY C. JOHNSON, Chairman.

Varieties.

Two good composers wanted at this office immediately. Steady employment given.

Dr. Oakes has removed from Ullman block to the office next north of the Bush House.

A Young Men's Christian Association has been organized at Oil City. It was needed.

The Tack O'Connor case came up Wednesday in the Philadelphia Court of Quarter Sessions. About one hundred witnesses, principally oil dealers, left Pittsburgh on Tuesday, to appear and give testimony in this important issue.

All the latest and best musical publications of the day are for sale by Georgi &amp; Brown, Jamestown, N. Y. We have received from them "Golden Leaves," "Moonlight among the Pines" — song and chorus, and "Mother, hear the Angels Singing."

A correspondent of the Meadville Republican, who has been roaming through the oil region, says he brought up at Titusville, and was safely landed at the American Hotel, kept by that prince of landlords, Major Mills, who can tell more side-splitting anecdotes and act his guests down to a good supplied table, as any man of his size in the oil region."

—The Meadville Journal says: "The laborers on the Mahoning Division of the A. &amp; G. W. Railway have knocked off work in consequence of a reduction of wages. At last accounts they were still holding out, but will have to give in some time, for notwithstanding the road is in a horrible condition, needing repairs very bad, it will wait for cheap labor to perform the work."

Charles Dickens is about to sail for England and the press of New York are to give a banquet in his honor on the eve of his departure. The newspapers have been full of Dickens for months, but the most faithful delineations of his manner, and the most charming criticisms, are the pen photographs by Kite Field, collected in pamphlet form. Mr. J. H. Madison, of Buffalo, favored us with a copy which we will accept our thanks.

—By the close of this year, it is estimated, full 1,200 miles out of the 1,700 between Omaha and Sacramento, will be traversed by the locomotive. The time between New York and San Francisco will be reduced to ten days. Both ends of the Great National Line are making gratifying progress, and under their respective powerful Companies, the prospect of a continuous all-rail connection across the continent in 1870, is favorable.

GEORGE FRANCIS TRAIN is in the hands of the Philistines, as he styles the English authorities, and his escape from their clutches will not be easily accomplished, as in the case of his first incarceration at Queenstown. He has been arrested for a vulgar debt amounting to £295 15s 7d, an amount that must surely be insignificant to the head and front of the Credit Mouiller of the United States. The suit was instituted by the Ebene Vale Iron Company for an alleged balance due over since Mr. Train was engaged in the English tramway speculation in 1862. The cable informs us that in his schedule he has been rejected by the Bankruptcy Court as not being worth the paper on which it is written. That decision sent Mr. Train back to his quarters at the Four Courts Marathons, where he must remain until he pays the money, or furnishes what the Court in its wisdom may consider a correct account of his assets and liabilities. Under the circumstances, it is dubious whether he will or will not return home in time to enter on the Presidential track, and take possession of the White House on the 4th of next March.

LESSONS IN GERMAN.—Mr. Morris Einstein advertises to receive pupils for instruction in the German language. The Board of School Directors have awarded him the use of a room in the Union School building for hearing recitations, and it is presumed that a number of pupils in the senior department will avail themselves of the opportunity for pursuing this important study. There are few branches which involve greater practical advantage than German, which is now everywhere spoken, and will soon be considered an indispensable acquirement. Mr. Einstein is an experienced and competent instructor, and we shall be glad to note his success. The rates of tuition will be regulated by the number of pupils. Private lessons will be given to adult pupils, where desired. Attention is directed to Mr. Einstein's card, in another column.

NOTICE.—All members of the Independent Base Ball Club, of Titusville, are requested to meet at the Eagle House this evening for the purpose of reconstituting.

T. J. Miller, Secretary.

## FROM CHICAGO.

**The Erie Railroad Accident—Further Particulars—Fate of Mr. Melvin.**  
We stated yesterday that C. G. Donabue, the son-in-law, and John Melvin, the brother-in-law of our fellow citizen, Mr. Thomas Goodwin, were among the victims of the terrible railroad accident which occurred on Wednesday morning at Carr's Point. The following dispatch confirms the worst fears which were entertained for the fate of Mr. Melvin, who was reported missing in former dispatches. The author, together with Mrs. Donabue, left this city by the Wednesday noon train for the scene of the accident.

PORT JERVIS, N. Y., April 16—3 P. M.  
**To Thomas Goodwin:**  
There is nothing left of John (meaning Melvin), but his pocket book. (One (meaning C. G. Donabue), is badly hurt.) P. GOODWIN.

Mr. Melvin was a man about forty-five years of age, and was for twenty years a resident of Buffalo, N. Y., where his family, consisting of a wife and daughter, are residing. Mr. Melvin had been quite successful in business, and accumulated a considerable property. Last winter he built an iron tank in this city near the brewery, across the creek, and his intention was to erect another this season. Mr. Melvin was on his way to New York city, to buy a stock of groceries, and is supposed to have had some ten thousand dollars on his person, either in money or drafts.

We observe in the list of the killed, the name of Elias Blossom. Mr. B. was well known to the travelling public. He was one of the Blossom brothers, who kept for many years the Blossom Hotel at Rochester, more latterly, the deceased was the landlord of the Brainerd House, at Elmira.

Mr. Blossom leaves a wife and several daughters, on whom this blow will fall with dreadful force. In regard to young Donabue, we see it stated that just before leaving Buffalo, he said he should not take a sleeping car, but changed his mind, at the solicitation of Mr. Melvin, and occupied the berth with him. Among the killed was Charles K. Loomis, the General Freight Agent of the Lake Shore Railroad.

The coaches were well filled, the sleeping cars containing a number of railroad men on their way to New York, to attend a convention of freight agents to be held to-day at the St. Nicholas Hotel.

The cause of the accident is attributed to a spread rail, which was found after the accident to be badly broken.

The passenger cars went down an embankment a distance of from seventy-five to a hundred feet, rolling over and over to the ruin into which they all plunged, excepting the sleeping car, which lodged on the side of the declivity and was burned by the store setting fire to the bedding. The cars which went into the river were totally demolished, and many persons were thrown out before reaching the water.

The following is the testimony of some of the passengers:

Mr. J. B. Hollenbach, of Morris, Illinois, states that he left Cleveland yesterday morning, and was in the first car, the rear sleeping car, was involved in the accident, and four o'clock this morning by a violent jerk, with a concussion and the consequent rolling of the car down an embankment. On a cessation of the motion screams of fright and pain arose from several women and children occupying the car, who had been tempestuously to their butter as the mail passengers. He received a few contusions, but was unconscious of them, and had no consciousness of them with other than the car was urged into the

The car had rolled on unfeeling plain down the bank and stopped at a distance of about one hundred feet from the road. Fearful shrieks arose from the centre and last sleeping car. The former had fallen perpendicularly fifty feet from a culvert into the small stream below and the latter had rolled similarly into his own car, but had caught on fire from the chinters of the stove. Both were much mangled, but from the smoke and smoke, contributed to the injuries sustained. Attention was immediately given towards extracting the sufferers, and the engine, baggage car, smoking car, and one other car went to Port Jervis, and transferred the passengers, baggage, and mail to another train, and immediately returned for the transportation of the wounded. Mr. Hollenbach reached the city about 1:30 to-day, together with about a dozen others who had been slightly hurt, and whose scenes of carnage he had witnessed.

Mr. Hobart moved, and Mr. Bevan seconded that the report be accepted and placed on file.

THE BILLIARD COMPETITION.

Tested as political chums do oftentimes and as pugilists always should—in a row. On the 39th meeting the score standing—Foster 1,255, McDevitt 1,268. Foster claimed that no count had been made by McDowell who had the balls. McDowell's referee, Mr. Brown, at once declared that McDowell had counted, when Foster threw down his cue, put on his coat and walked out amidst the cheer of his backers who were overjoyed at the prospect of saving their money, for McDowell having the balls could run out without much difficulty. But the decision of the referee is final and without appeal. McDowell remains champion of America and his backers get the stakes wagered.

THE REPUBLICAN CONVENTION.

Bringing the wire pullers to the front in time. Each of them have a man in view—all of them have some man's money in their pockets, and they are prepared to expend it with becoming liberality if our "dilection" will just vot the way. Gen. Brisbush's slashing letter on ex-Gov. Curtis is creating a sensation among the Westerners. Curtis is creating a sensation among the Easterners, and the engine, baggage car, smoking car, and one other car went to Port Jervis, and transferred the passengers, baggage, and mail to another train, and immediately returned for the transportation of the wounded. Mr. Hobart moved, and Mr. Bevan seconded that the report be accepted and placed on file.

On motion of Mr. Abbott, seconded by Mr. Bevan, that the whole matter be deferred one week. LOST.

The original motion was then carried, and the ordinance was adopted by sections.

Mr. Abbott moved to amend, seconded by Mr. Bevan, that the whole matter be deferred one week.

On motion of Mr. Abbott, seconded by Mr. Bevan, that the Council proceed to the election of City Oil Inspector.

Mr. J. B. D. Clark and Ezra Clark were nominated.

On motion a formal ballot was taken, and resulted in J. B. D. Clark, 6; Ezra Clark, 2.

On motion Mr. J. B. D. Clark was declared unanimously elected City Oil Inspector.

Mr. Ezra Clark was then nominated as City Pound Master, and elected by acclamation.

Mr. Hobart moved, and Mr. Bevan seconded that the Council accept the proposition of Mr. Fletcher, to occupy room No. 5, as a Council room at a salary of \$1500 per year. Carried.

On motion adjourned.

E. T. HALL, City Clerk.

PRESERVATION TO SENATOR WADE.—Some

three years ago, Mr. William D. Evans, a left-handed Welsh miner, living at High Park, in the Twelfth Congressional District of Pennsylvania, prepared an elaborately carved case for presentation to Abraham Lincoln. It is a most curious and ingenious piece of workmanship, fashioned from a par-knife out of a solid piece of hickory. It is embellished from one end to the other with a variety of figures. Near the handle is the face of an Indian; on the opposite side, and a little lower, a vignette of President Lincoln, and the initial, "A. L." a little lower, the Goddess of Liberty, with her foot on a dragon; next, a hand, and a row of stars running vertically, then a spiral twist, resembling two separate pieces twined together; below this, a globe curiously carved in the heart of the wood, and underneath, a serpent, entwining the cane upward from the handle. The cane is painted and varnished, the several figures carved thereon being appropriately colored. It cost the carver many months of labor, and the assassination occurring before its completion, prevented its presentation as originally intended. On Tuesday it was presented privately to Hon. F. W. Wade, as a mark of the high estimation in which he is held by the Welsh of Pennsylvania, who regard him as the second Lincoln, in his unwavering honesty, pure patriotism, and devoted advocacy of the cause of human rights.

Following is the list of the wounded.

lying in a ditch. Reed has confessed that the

murder was committed by himself and another

MISCELLANEOUS.

## THE ROBERTS'

## TORPEDO COMPANY.

TO ALL WHOM IT MAY CONCERN:

The following is a brief summary of the Rights

and Claims of the Roberts' Torpedo Company, which

they have agreed to submit against all parties violating

the same.

The rights of said Company consist of three Patents

issued and granted by the United States to A. J. Roberts

for Captain of Torpedoes in oil bearing rock,

to the with the assignment of all other Patents for

the exclusive right to use Nitro-Glycerine and other

powerful explosive materials for the uses and purposes

in the Oil Regions mentioned.

In the various legal opinions relating to the Patents

above mentioned, volume of testimony have been

taken and made of the best legal talent in the country,

has been employed in opposition to the Company, but

after a course of over two years, it was decided by the

Supreme Court of the United States that Col. Roberts

was best to disclaim the patentable claim and invent

the means of increasing the quantity of oil wells in the

oil bearing rock by exploding Torpedoes therein.

Thereupon the organization of said Company, in or

order to secure their right, has been determined

so to commence suits against several persons, among

whom are Alexander H. A. Albert, Dr. H. S. Dickey, and

K. &amp; M. Mallon, (operators,) and Adams &amp; Park

(Manufacturers). That during the trial of said several

cases, the pretended claim of William Reed and others

in the case, that the invention and first use of

Torpedoes of rock, were fully investigated, and notwithstanding the well-arranged plan of Reed and others, judges were obtained in the United States Court against them never a particle defendant in said

and permanent injunction issued against all of them.

Indeed every trial to protect the interests of

said Company, has been commenced in the

Opposing Courts, and injunctions set aside against

Patrick T. Munro, of N. Y., Venango County, Pa.,

and George W. Van Reed, of Pittsburg, in said county.
